TWO-WAY BACKPACK FROM HARVEST HILLS

# *What does it mean to be 591g?*

A bag itself can make you reluctant to go outside because the bag's weight would be a bummer even with nothing in it.

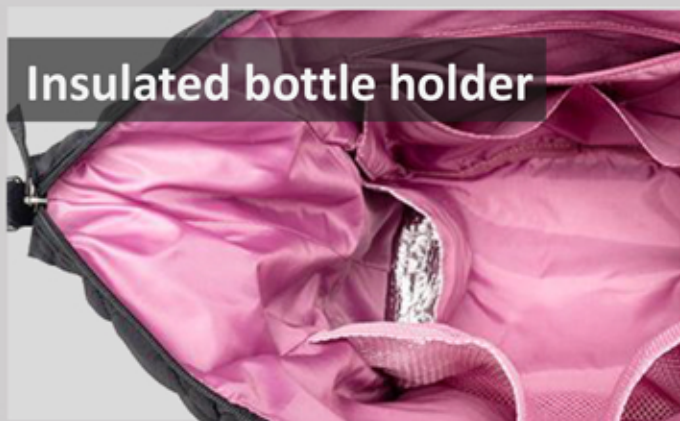

591g or 1.3lb is half the weight of average jackets. Meaning you can forget having it on your back as you often times forget wearing a light jacket.

# *Roomier than it looks*

6 inner pockets  
4 outer pockets

Insulated bottle holder

Coiled key chain

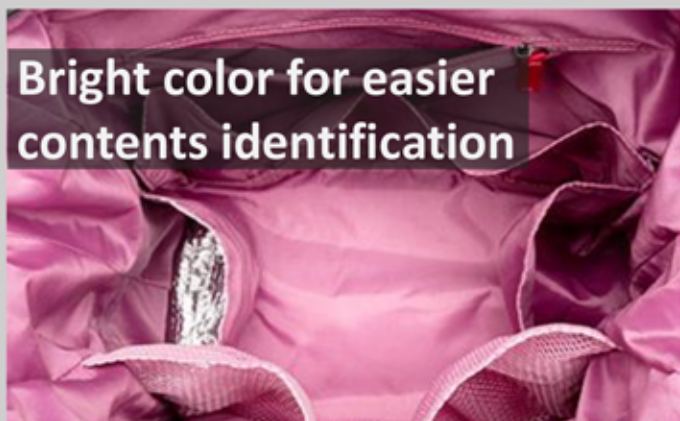

Back pocket

Mesh pocket  
for visible storage
